THE GAME IS ON!

BYON – MOMENTOUS TANGIBLES AW2021

Get ready! Now we're stepping into a new active season and we want to inspire you to spend time together, play games and celebrate in big and small every single day. If it's digitally, at a distance, at home or away, doesn't matter. We will have fun, no doubt about it. Therefore, it feels really great to finally present ByOn's playful autumn and winter collection. The game is on. Stylish design which spreads its wings and fully plays the game of life. Especially the comeback of the board games has tickled our curiosity and enticed us to create design moves with the chess square itself closest to heart.

Big, extreme and excessively much of everything also highlights this lively collection which vibrates with desire and joy to both be seen and blend in, to stand in the limelight or consciously lure backstage. Dark green, strong pepper, luscious lavender and confetti are mixed with light vanilla and quiet brown nuances, which in a fantastic fusion enhance the theatricality all around us. So, let your everyday become a world of magic. Fill it with games, glitter, colours and shapes. Get comfy, invite to dinners, dress up and take the opportunity to take part of our festive everyday tips at [#bubblesforeveryday](#).

A MORE JOYFUL EVERYDAY

Playfulness and a childlike mind feels like ByOn personified. No one is too old for a game of chess or a round of hide-and-seek. We have collected our best tips (games) for a more joyful everyday. Games no one in their right mind should be able to say no to, should they?

MUSICAL CHAIRS

Musical chairs – no one has a home without chairs, right? Put them in a row back to back, one chair less than the number of participants. Play music while you walk around the chairs. The person left standing when the music stops is out. Remove a chair until there is only one left and you are in the final round to have a winner!

FOR HOW LONG
CAN YOU DO A
HANDSTAND?

Challenge your family members on a daily basis. By the way, do you know that when the blood flow increases in the brain, the memory and the ability to focus also get better? In other words you get more alert.

CHECKMATE!

STRIP POKER WITH A TWIST?

For every lost game you have to put an extra garment on. So, bring out your masquerade box or your winter wardrobe. It can get rather hot to sit with both an overall and a hat indoors.

A photograph of a person wearing a black and white striped dress and orange lace gloves, holding a large, shallow, golden-brown bowl. The bowl contains a burrata cheese ball, fresh arugula, and a drizzle of oil. In the foreground, there is a martini glass filled with a light-colored liquid. To the left, another similar bowl is partially visible, containing gold jewelry. The background shows a white table with silverware.

THE GAME OF TASTES?

With a mix of joy and horror we tried all sorts of weird tastes in this game when we were kids. Surprisingly enough it's equally enjoyable today (but perhaps without the worms and the ants).

HIDE-AND-SEEK

Who's hiding under the couch? No, this game is not only for children. It's just as much fun to try hiding as an adult. Perhaps even funnier, it's probably not as easy to hide under the kitchen sink now as when you were five years old.

PRANK CALLING

LUDO

THE FLOOR IS LAVA

Use whatever you have on hand, pillows, chairs or blankets and place them around the house. Who manages to move around without touching the floor for the longest time.

BYON X ASTRID WILSON

Astrid Wilson, illustrator and artist, has with her magical patterns, colourful clothing, big details and her humble smile swept us off our feet. Astrid's feeling for colours and patterns and the combination between them is exactly what #bubblesforeveryday is about: to have the courage to be personal and to go for it. The collection ByON x Astrid Wilson is a tribute to the 90s but also an anticipation of the 2020s. An anticipation that will bring forward a new strength and which is boosting the power in our making a difference together, creating magic and the courage to change the world around us on the inside as well as the outside.

WALL DECORATIONS

“Magic mirror on the wall ...” When it comes to wall decorations we’re not just talking about mirrors, even if we do have some magical ones. We would also like to present some other fabulous creativity involving wall hooks in the shapes of a tiger, monkey, giraffe or rabbit. Lovable decoration sea creatures, pencil holders with a roar are other kinds of imaginative creations opening up for: “... which is the fairest of them all?”

GAMES

A small category but perhaps our most important one this season. For us playing games is part of our core values. Your interior design should always (if you ask us) offer a playful side, but also contribute colours and design matching your home. So, now when we can present new board games, in luxury colours and materials, it finally feels like we are complete. The game is on!

RUGS

You can stand on them, walk over them and sit on them, but never take their greatness away. Few things can so easily and positively change the feeling, the sound and the look of a place as rugs. They can be patterned, plain, soft or hard. The variation is endless and so is the purpose they fill. Welcome to a world of floor bonhomie.

TEXTILES

Textiles animate everything we love in a room. No matter where you're putting them, no matter what shapes they come in, they always manage to show off in the end. Not necessarily as big and beautiful, though that happens quite often as well, but as the extra touch, the detail that makes a difference over and over again.

FURNITURE

Design is the first word that springs to mind when we talk about furniture. Naked, surprising and oh so stylish shapes are what we identify with chairs, tables and the forever irresistible poufs. Leather, wood, metal and rattan are some of the basic framing, topped with lamb fur, glass, velvet and corduroy, to mention just a few. All mixed in their own way into stunning results, into charismatic and loyal designs.

MINI BYON

Children are looking at things from a slightly different angle. So are we when it comes to our Mini ByOn Collection, stretching from newborn to school age. Cosy clouds, rabbit lamps, ceramic balloons, pretty table sets and fairytale collections are some of our fantasies come true. Materials are important as are the colours standing out in their own personal way. Design is essential of course. Family games can easily be left in the living room and the snug and varying textiles always fit in. Just as childlike awareness and sense of humour, the way we see it, kids are always growing a little closer to the sun ...

CARE INSTRUCTIONS

In order for you to enjoy your newly purchased furniture for a long time to come, we recommend following our care instructions. Our furniture is made of solid wood and MDF. Wood is a fantastic natural material but is influenced by factors such as humidity, light and heat. Even surface treated, painted or varnished furniture can be influenced by external circumstances, for example, wood will shrink in a dry climate and swell in a humid climate.

Remember to

- Immediately wipe up spilled liquid with a dry cloth, some liquids such as coffee and red wine can rapidly discolour the surface.
- Do not place the furniture in direct sunlight. If protected, the furniture will retain its original hue considerably longer than if left unprotected. However, do not cover the same area for longer than a few days at a time.
- Do not place furniture close to a heat source (e.g. radiators).
- Do not place hot and humid objects directly on the surface, such as plates, glasses, mugs, pots, candles, flower pots, etc.
- Do not place coloured candles, adhesive tape or stickers on the surface.

Screws and fittings should be checked and tightened if necessary to maintain stability and function.

Despite the solid wood we use being dried and treated to avoid cracking and deformation, as a natural material it continues to absorb and release moisture. Thus, it can shrink and swell which can result in small cracks occurring in the various joints; however this is nothing that affects strength and is not considered a defect. Here in Scandinavia we are particularly affected in the winter months, due to the dry indoor climate during this period.

Furniture which is antique-treated is partially made by hand to give a more unique and antique look. This furniture has partially abraded edges and there may be uneven, small cracks and small colour deviations on the same piece of furniture, which cannot be considered as defects. This also means that every piece of furniture is unique and it is not possible to have two products which are 100% identical.

For leather items, please follow the instructions given for each individual piece of furniture as care depends on the way in which the furniture is used and how much wear and tear it is subjected to.

However, there are some rules which apply for all leather furniture:

- Do not place your furniture too close to a heat source.
- Ensure an air gap of 20-30 cm between the furniture and any heat source.
- Protect the furniture from direct sunlight for extended periods.
- There are a number of products available on the market today that protect leather surfaces against spillage and stains, improve durability and make furniture easier to clean if an accident should occur. Contact a furniture store for advice on which product is suitable for your particular piece of furniture.
