

# ABOUT US

---

The idea of ELDSTICKAN was born after our Swedish founder, Martina Sahl, searched – without success – for something beautiful to light her candles with.

*“I believed it was about time that the old matchbox got a new, more elegant form, and the notion of a glass bottle was exactly what I was looking for. I wanted to create a simple yet timeless piece that added beauty and a personal touch to the home,”.*

Six years in, Eldstickan is already well underway of becoming a Swedish design classic. Matches have been around for over 170 years but have nearly always looked the same. Now they don't.

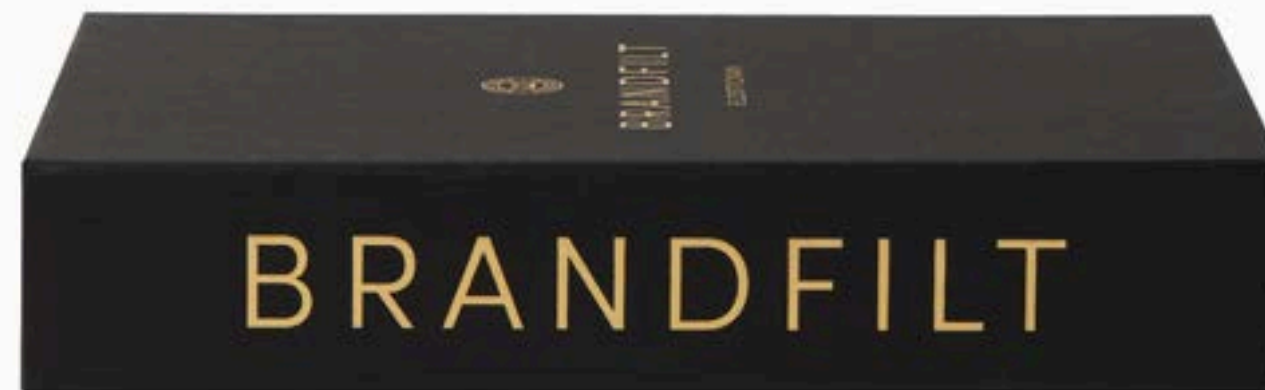

Our innovative and unique design has transformed the classic matchbox, and now also fire blankets and other fire related products into beautiful interior detail. Eldstickan should have a place in every home.
