# Seedsticks™

## Seedsticks™ The small give away with the big impression

Seedsticks™ are based on the original 1940's design for a book of matches. Rather than an explosive head on the end of the match we use our own patented machinery to glue plant seeds onto the sticks – hence the name 'Seedsticks™'.

This unique and exclusive product manufactured by Sow Easy® is the perfect premium gift for pennies.

By branding the cover, and even choosing a bespoke shape, Seedsticks™ offer a point of discussion and a longer lasting memory of your corporate message.

There are many varieties of seed to choose from and we can totally personalise the product to meet your exact requirements.

## What are Seedsticks™

Growing from seeds has never been Sow Easy®

1 Break off a seedstick™

2 Push the pointed end into soil up to the depth line and water

3 Leave the stick in position as your new plant grows
