FUNCTION

We design award-winning, functional products. With innovative functions or two-in-one features RIG-TIG products make life easier and more fun.

DESIGN

We love smart kitchen design. In collaboration with outstanding designers worldwide we create beautiful, fun and functional kitchen products.

RESOURCES

RIG-TIG is conscious about nature's limited resources. We try to reduce the environmental impact of producing RIG-TIG, whenever it is possible.

RIG-TIG is Danish for 'just right'. Our values centre around getting the design just right, combining form and function in perfect balance. It also means delivering innovative kitchenware at prices that are just right - while keeping nature's limited resources in mind.

At RIG-TIG, we believe that 'circular' thinking is essential for sustainability. The idea of a circular economy is that through maintenance, sharing and recycling, materials and products stay in use for as long as possible. The circular economy encourages us to focus on the environment rather than extracting resources from our planet. RIG-TIG products are designed on these premises. The user guide shows how to dismantle them completely, meaning these valuable resources can be recycled into new products.
